On May 8, 2013, Dr. José Raúl Montes shared his expertise on facial fillers with the Dermatology Residents of the University of Puerto Rico, School of Medicine.

Dr. Montes first talked about Periocular Rejuvenation from an Oculoplastic Surgeon's perspective.

Then followed with discussions on surgery, fillers, and the combination treatment.

After the conference each Dermatology Residents discussed one article about Facial Injectables and complications, with emphasis on recent medical literature publications about visual loss related to Cosmetic Facial Injectables.
